Order this book now. Stocks are limited. The book is currently available directly from the NZ Farm Forestry Association or from Touchwood Books.

Wardle's Native Trees of New Zealand and their story is a book that anyone interested in trees will want to buy and read. There is no other similar book available on New Zealand native trees.

This book is an easy-to-read, but all-encompassing account of our native trees with over 300 full colour photographs. The text includes botanical and ecological characteristics of all 233 species of native trees, describing form and dimensions as well as foliage, flowers and fruit.

There is detailed geographic distribution along with the types of site and plant associations in which they are normally found. Information is also provided on propagation, establishment and the potential for planting.

The author of *Wardle's Native Trees of New Zealand and their story* is John Wardle who has spent many years working on the text. The majority of the photographs have been taken by Ian Platt who spent almost as many years travelling throughout New Zealand to find just the right specimens at the right time for the photographs.

The NZ Farm Forestry Association are the main funders of this book. Sales of the book will be used to raise the profile of native trees and of the NZ Farm Forestry Association.

You are able to buy this book directly from the NZ Farm Forestry Association using this form, or from Touchwood Books. The book will not be available in bookshops for some time.

This book is priced at only \$95. All proceeds from the book will go to the NZ Farm Forestry Association.
