Come to Visit the Waikato

For many NZFFA members and special interest group aficionados you will not have had the opportunity to visit the region since the last conference many years ago. We have arranged an interesting programme with the chance to see and discuss items of interest to all the groups. We will visit redwoods, eucalypts, cypresses, melanoxydon and indigenous plantings and have some good discussion on poplar utilisation.

Key Facts

Te Awamutu has a range of motels for accommodation—contact I-site for tips.

We will not be covering big distances so will have plenty of discussion time

A buffet dinner and bar is being arranged at the Te Awamutu Sports Club in central Te Awamutu

We expect the Sunday field trip to wind up by lunch time so you have time to make your journeys homeward.

“We expect to put on some great weather, and show you some great plantations being grown in pretty much ideal situations. We anticipate some robust debate on a raft of special species management.”
